

<b>CHEMISTRY- certificate for laboratory health sciences</b>		<b>3 SH</b>	<b>3 SH</b>	<b>3 SH</b>
<b>Program SLO</b>		<b>CHM 2XX1-1 : General Chemistry 1 for Laboratory Health Sciences</b>	<b>CHM 2XX1-1 : General Chemistry 2 for Laboratory Health Sciences Course Title</b>	<b>CHM 2202 : Organic Chemistry for Laboratory Health Sciences Course Title</b>
<b>Content</b>				
<b>Critical Thinking</b>				
Solve problems using scientific methods	Solve problems through the application of basic chemistry knowledge as they relate to laboratory health sciences and define appropriate chemical equations to solve mathematical problems	<b>X</b>	<b>X</b>	<b>X</b>
<b>Communication</b>				
<b>Integrity / Values</b>				
<b>Department Name</b>	<b>CHEMISTRY- certificate for laboratory health sciences</b>			
<b>Department URL</b>
