

**36 Semester Hour Sequence (No Summer Courses)\***

**Odd Years Admits (2013, 2015, 2017)**

**General Track Requirements**

Advanced Cognition	Professional Seminar
Advanced Sensation and Perception	6 Thesis Credits
Advanced Developmental	3 Stats Credits
Advanced Social	Research Design
Cognitive Neuroscience	6 Elective Credits (Stats Recommended)

During your first semester, you should be taking:

Advanced Cog Neuroscience  
Advanced Developmental  
Statistics or Elective

During your second semester, you should be taking:

Advanced Social  
Research Design  
Statistics or Elective

During your third semester, you should be taking:

Thesis  
Advanced Cognition  
Statistics or Elective

During your fourth semester, you should be taking:

Thesis  
Advanced Sensation & Perception  
Pro. Sem

\* If you must take summer classes, it is recommended that you take a third stats course, talk to your thesis chair about the possibility of an directed study in which you write your proposal, Community Psychology, Human Factors, or etc. Please do not take a course listed in the regular sequence, such as Cog Neuro, as it may be difficult to find a course to take during the semester in which it was originally planned.

If you are not planning on being a full time student, or if you plan on also completing a certificate program, please talk with your advisor about alternative course sequences.
