

STANDARD OPERATING PROCEDURE #FAC 6.001

Subject: Housekeeping Assignments – Utilities Department

Purpose and Scope: To guide employees' efforts concerning responsibilities and frequency in order to obtain a clean work area. These assignments are intended as a guide only and are not to be substituted for good common sense or to supersede specific instructions from Supervisors. Individual housekeeping assignments must be performed on a regular basis and should not take second place to any other normal function, however, due to lighting constraints in some areas, the major portion of housekeeping should be completed on the day and early evening shifts.

Procedure:

The following assignments cover specific areas of housekeeping responsibility. This does not however, relieve any shift or day worker of routine housekeeping in areas other than those assigned:

Area	Assigned	Frequency
<p>No. 1 Chiller</p> <ul style="list-style-type: none"> • Associated pump and floor area, upper deck, stairwells and Mezzanine areas. • Clean all chillers, piping and associated pumps of cobwebs and dust by using the blower to blow dust and debris. • Wipe down chillers with clean rags. <p>Building 40: Southwest stairway and associated windows</p> <ul style="list-style-type: none"> • Sweep floors and remove cobwebs. <p>Cooling Towers</p> <ul style="list-style-type: none"> • Inspect towers from top to bottom • List condition/issues in log book • Sweep area as needed • Keep weeds and brush cut back from the towers 	<p style="text-align: center;">Day Shift 0600 to 1400</p>	<p style="text-align: center;">Daily, with all completed by Sunday night.
