“I wanted to stay local and heard nothing but good things from my friends at UWF Emerald Coast. Since arriving, my professors have treated me like family and have worked with me through any issues I’ve faced, telling me not to give up.”
—Brent Marshall, ’16

At the UWF College of Education and Professional Studies, we strive to provide a quality educational experience to all of our students. Our mission is to educate and prepare competent professionals and educators to resolve 21st century problems using the most advanced theoretical, managerial, and technological knowledge, skills, and abilities available.

Through innovative curriculum and challenging courses taught by high quality faculty and experienced practitioners, we provide our students with the foundation for a successful career.

**Study Abroad.**

CEPS offers students several opportunities to engage in Study Abroad programs, including Emerge High-Impact Experience trips to Japan, Scotland, and Guatemala.

**Partnerships.**

The Emerge Initiative was developed to help faculty design and utilize High-Impact Practices (HIPs). By using a combination of techniques that have been shown to deepen student learning and engagement, these HIPs raise levels of performance, retention and success for all students. Please visit uwf.edu/emerge for more information.

**Splatter Expectations**

At the UWF College of Education and Professional Studies, we strive to provide a quality educational experience to all of our students.

Our mission is to educate and prepare competent professionals and educators to resolve 21st century problems using the most advanced theoretical, managerial, and technological knowledge, skills, and abilities available.

Through innovative curriculum and challenging courses taught by high quality faculty and experienced practitioners, we provide our students with the foundation for a successful career.

**How we make a splash**

- Legal Studies listed as one of the 25 Best Legal Studies degree programs in the country by TheBestSchools.org.
- Criminal Justice Program has internships with 38 local, regional, & national agencies for students to gain hands-on experience.
- UWF has been ranked in the top 5 of the Open Education Database (OEDb) list of Top Online Engineering Colleges for the Bachelor of Science Degree in Information Engineering Technology.
- UWF’s Mock Trial Courtroom gives students the opportunity to practice law in a real-life setting.
