Honorary Doctorate Degree

MICHAEL F. SUMMERS

Doctor of Science

Michael F. Summers is a Howard Hughes Medical Institute Investigator and Professor of Chemistry at the University of Maryland, Baltimore County (UMBC). He is also a teacher and mentor who “combines the achievements of an outstanding research scientist with equal dedication to students, especially those from minority backgrounds.”

Summers has directly mentored a dozen Ph.D. students from a variety of socio-economic backgrounds. Of the 67 bachelor's degree recipients who have worked in his lab, 20 have entered Ph.D. programs. He developed and directs the Meyerhoff Graduate Fellows Program, a minority graduate program at UMBC. Through this program, 74 full-time students, African American and Hispanic, are pursuing Ph.D. degrees in the biomedical sciences. Participation in

other departments on campus has also increased dramatically, and he continues to promote diversity training at other institutions. Of Dr. Summers, a colleague says that “his students cling to his every word, whether these words deal with science or some discussion of their everyday problems in life. Mike Summers is a consummate mentor.”

Summers serves on the Board of Directors of the Federation of American Societies for Experimental Biology, and on the Education and Human Resources Advisory Committee of the National Science Foundation. In both cases, he was asked to participate because of his expertise and commitment to strengthening mentoring and increasing diversity at the national level. He is the recipient of the AAAS Mentor of the Year Award and White House Presidential Award for Excellence in Science, Engineering and Mathematics.

He is honored for his contributions in mentoring students from underrepresented groups and leadership in promoting Ph.D. careers for underrepresented groups in science and engineering. Summers earned his B.S. in Chemistry in 1980 from the University of West Florida. He received his Ph.D. in Inorganic and Bio-Physical Chemistry from Emory University in 1984.

ACADEMIC REGALIA

The academic costume worn today at the University of West Florida originated in the universities of the Middle Ages when a warm gown and hood were useful for scholar and cleric in unheated buildings. The distinctive gown also served to set the student apart from his fellow citizens of the community. Until the Civil War, students at most American universities wore caps and gowns daily while in residence. These varied in design until they were standardized in 1894. At that time it was decided that all robes would be black; bachelors' gowns of silk with long closed sleeves; doctors' gowns of silk with longer sleeves and faced with black velvet from hem to neck and back. The doctors' gowns also carried three velvet bands around each sleeve above the elbow. Hoods, made of the same materials as the gowns, were varied in length with the degree. The lining of the hood indicated the academic discipline in which the degree was earned. In the recent years several universities have decided to return to a distinctive gown design, particularly in the color of the garment. However, there has been no change in the standard colors that represent the disciplines. At the University of West Florida each bachelor's degree candidate or graduate wears a blue and green tassel on the cap (mortar board). The tassels of master's and specialist's degree candidates and graduates represent the college awarding the degree: white, arts and sciences; light brown, business; and light blue, professional studies. Doctoral degree recipients wear a gold tassel. In addition, baccalaureate graduates who have earned a 3.5 accumulative grade point average or better are entitled to wear gold honor cords on their gowns.

Academic Hood Colors

The color lining the hood indicates the following:

Apricot, Nursing

DISTINGUISHED UNIVERSITY PROFESSORS

Dr. Ron Bush received the Distinguished University Professor award in 2008, in recognition of his outstanding performance in the area of research, and his life-long commitment to the world of academics. Dr. Bush has made significant contributions to the Department, College and University through extensive research, outstanding teaching, and extremely valuable service activities. Dr. Bush's marketing research textbooks continue to make a big impact in the discipline, judging by the large number of adoptions in the U.S. and around the world. He is an outstanding teacher, praised by his students who consistently express their admiration to his quality teaching—a tribute to his high level of talent—and his dedication to help students succeed in their careers. His trajectory in academics is very well established and he has achieved an enviable level of respect and recognition among his colleagues in the department and beyond, reaching the whole marketing profession.

Dr. Kuiyuan Li was awarded the Distinguished University Professor designation largely at the unanimous recognition of the faculty in the Mathematics and Statistics Department where Dr. Li served as chair for an impressive eight years. Dr. Li used his position wisely to promote the individual development of faculty in the department and under his leadership the department became recognized as one of the strongest math program deliverers in the State of Florida. An outstanding teacher, Dr. Li maintained a robust research agenda that often involved collaborations with other faculty in the department. His exemplary service drove the decision to confer the Distinguished University Professor status in 2010.

Dr. Al Cuzan received the recognition of earning the Distinguished University Professor status in 2012. Dr. Cuzan's eminence in political science research was a primary consideration in this decision. His development of systems to produce accurate political forecasting has earned him a national reputation for applying political theory to practical problems. Known for his rigor and challenging assignments, Dr. Cuzan's courses generate positive reviews from students for the life skills they teach in addition to political science content. He served as chair of the Political Science Department for over twenty years, making his tour of service one of the longest in UWF history.

Dr. Hedi Salanki-Rubardt was awarded the Distinguished University Professor title in 2012 based on her international renown as a harpsichord virtuoso and the exuberance of her teaching style. Dr. Salanki-Rubardt's teaching techniques have transformed music majors into world class performers primarily through her strong emotional investment in the students and the music. Her quality of performance has been recognized throughout the world based on invitations to deliver teaching experiences and provide judging of high level competitions. Her creative achievements as a teacher and a performer are without parallel.

Dr. John Ortiz Smykla was nominated by his colleagues for the Distinguished University Professorship in recognition of the example he set as an internationally acknowledged scholar-teacher and for his mentoring of students and faculty throughout his 37-year career in higher education. Dr. Smykla is a former Senior Fulbright Scholar to Argentina and Uruguay and recipient of a grant from the National Science Foundation to computerize a historical dataset on capital punishment. Scholars from the Universities of Maryland, South Carolina, and Florida State call it the "best historical record on executions in the United States." Dr. Smykla, his students, and colleagues are now evaluating reentry court, a specialized court that works with inmates who are transitioning from prison to the community, to learn if reentry court reduces offender recidivism and protects the community.

UNIVERSITY *of* WEST FLORIDA

ALMA MATER

*Where learning's light sends forth its beam
Through darkness of our youth,
There you, West Florida, home of dreams
Prepare the way of truth.
You guide us toward tomorrow's shore
With knowledge of our past;
Your power in us rests secure,
And evermore will last.
Your stately mansions were our home
Where minds and hearts are free;
And though we may far from you roam,
We'll always honor thee.*
