Academic Regalia

The academic costume worn today at the University of West Florida originated in the universities of the Middle Ages when a warm gown and hood were useful for scholar and cleric in unheated buildings. The distinctive gown also served to set the student apart from his fellow citizens of the community. ♦ Until the Civil War, students at most American universities wore caps and gowns daily while in residence. These varied in design until they were standardized in 1894. At that time it was decided that all robes would be black; bachelors' gowns of silk with long closed sleeves; doctors' gowns of silk with longer sleeves and faced with black velvet from hem to neck and back. The doctors' gowns also carried three velvet bands around each sleeve above the elbow. Hoods, made of the same materials as the gowns, were varied in length with the degree. The lining of the hood indicated the academic discipline in which the degree was earned. ♦ In the recent years several universities have decided to return to a distinctive gown design, particularly in the color of the garment. However, there has been no change in the standard colors that represent the disciplines. ♦ At the University of West Florida each bachelor's degree candidate or graduate wears a blue and green tassel on the cap (mortar board). The tassels of master's and specialist's degree candidates and graduates represent the college awarding the degree: white, arts and sciences; light brown, business; and light blue, professional studies. Doctoral degree recipients wear a gold tassel. ♦ In addition, baccalaureate graduates who have earned a 3.5 accumulative grade point average or better are entitled to wear gold honor cords on their gowns.
